Code-In *with* OpenMRS

Code-In: Google Code-in is a contest to introduce pre-university students (ages 13-17) to open source software development. Since 2010, over 8100 students from 107 countries have completed work in the contest. Know more.

OpenMRS: The global OpenMRS community works together to build the world's leading open source enterprise electronic medical record system platform. Know more.
